SUMMARY

Results-driven Maintenance and Production Engineer with Six Sigma (1) certification and hands-on experience in optimizing manufacturing operations. Proven ability to enhance equipment reliability, reduce operational costs, and implement digital tracking systems to support data-driven maintenance decisions. Skilled in project management, plant layout planning, and leading continuous improvement initiatives that directly contribute to efficiency and safety.

EDUCATION

Shahjalal University of Science & Technology, Sylhet, Bangladesh. Bachelor of Science (Engg.) in Mechanical Engineering	<i>Nov 2018 - Aug 2024</i> CGPA: 3.17/4.00
Sylhet Govt. Collage, Sylhet, Bangladesh. Higher Secondary Certification (HSC) (Science)	<i>2016 -2018</i> GPA: 4.42/5.00
Sylhet Govt. Pilot High School, Sylhet, Bangladesh. Secondary School Certification (SSC) (Science)	<i>2014- 2016</i> GPA: 5.00/ 5.00

EXPERIENCES

Assistant Maintenance Engineer. <i>Packmat Industries Limited, PRAN-RFL Group, Habigonj Industrial Park, Sylhet, Bangladesh.</i>	<i>Jun 2025 - Present</i>
• Developed an online system to improve spare availability tracking and reduce response time. Improved visibility of losses and supported preventive maintenance decisions. • Managing my team and giving training on spare parts inventory to optimize stock levels and reduce machine downtime. • Conducted internal audits to support process improvement and maintain compliance. • Successfully led the relocation of a full production machine from one building to another to minimize process time and enhance workflow efficiency. • Actively involved in Environment, Health, and Safety (EHS) initiatives and conducted safety training sessions for team members.	
MTO-Engineer. <i>Packmat Industries Limited, PRAN-RFL Group, Habigonj Industrial Park, Sylhet, Bangladesh.</i>	<i>Dec 2024 - Jun 2025</i>
• Performing hands-on maintenance and troubleshooting of production machinery to ensure smooth and efficient operations. • Gain knowledge about 5S, LEAN SIX SIGME, OEE and apply them in my workplace.	

Undergraduate Thesis

Jan 2023 - Feb 2024

Shahjalal University of Science & Technology, Sylhet, Bangladesh.

“HVAC SYSTEM FUNCTIONALITY OPTIMIZATION USING ANSYS-FLUENT”

- Proposed a new way of arranging the inlet and outlet duct position to maintain the proper air flow with minimum power. Also the better cooling system of the floor.

Undergraduate Project

Jan 2023 - Feb 2024

Shahjalal University of Science & Technology, Sylhet, Bangladesh.

“SMART HOME WITH IOT FEATURES FOR LOW-COST SMART HOME SYSTEM”

- Our team prepared an IoT system at low cost that can be used anywhere with a Wi-Fi connection. We can control the electrical components with our phone from anywhere.

KEY ACHIEVEMENT

Production Efficiency & Energy Savings Contributions.

- **Energy & Cost Reduction:** My Own project "Energy Saving by Cooling System Improvement". Engineered an energy-saving cooling system replacement (3x 4-ton AC units with centralised AHU), achieving near-zero breakdowns and delivering a 40% ROI with monthly savings of 57,000 Tk. at Pran-RFL Group.
- **Process Optimization:** Successfully led the relocation and commissioning of production machinery, minimizing downtime and optimizing floor layout for improved workflow
- **Maintenance Digitalization:** Designed and implemented a digital spare parts inventory and breakdown tracking system, reducing equipment response time by 25% and improving data visibility for decision-making by 30%.
- **Enhanced EHS Compliance:** Strengthened EHS compliance through audit-ready layout designs and safety training, reducing operational risk.

First Prize in Six Sigma Competition.

Awarded First Prize for outstanding performance in a Six Sigma project competition, leading significant process efficiency improvements.

Second Prize in Kaizen Presentation.

Won Second Prize in a Kaizen presentation, demonstrating effective continuous improvement strategies and practical problem-solving skills.

CERTIFICATIONS

Six Sigma Level 1 Certified.

Successfully achieved this certification by gaining strong knowledge in process improvement and quality enhancement. Gained proficiency in DMAIC methodology, statistical analysis, and root cause analysis for process optimization and waste reduction.

Fire Safety Certificate

Completed "Fire Fighting, Fire Prevention, Rescue, and First Aid training" by Bangladesh Fire Service and Civil Defence (FSCD). This program strengthens operational readiness, risk mitigation and on-ground emergency response.

INDUSTRIAL TRAINEE

SHAHJALAL FERTILIZER COMPANY LIMITED - (FENCHUGANJ.Sylhet)

Sept 2023 - Oct 2023

An all-day industrial visit of Shahjalal Fertilizer Co. Ltd. (SFCL) with an emphasis on their two 12-MW gas power plants. I had the good fortune to observe and learn about the operation of the fuel supply and flue gas cycle as well as the Deaerator, Economizer, Boiler, Superheater, Steam Turbine, Generator, and Condenser. Acquired expertise in the areas of planning, procurement, maintenance, process control, and material handling

ELITE HITECH INDUSTRIES LTD. (Korpai, Burichong, Cumilla, Bangladesh.)

Sept 2023 - Oct 2023

I gained a lot of real-world experience from the two-week industrial training program in areas such as electrical component assembly, shop floor management, HVAC systems, machinery maintenance, and production procedures for different types of air conditioners.

UNITED ENERGY LIMITED 28MW, SYLHET, Bangladesh.)

Sept 2023 - Oct 2023

It is a hydroelectric generating facility. That day we learned how hydroelectric power plants operate and saw a reciprocating engine in action. A quick visit to United Energypac Limited for business. It is a Sylhet hydroelectric power facility. Acquired expertise in the areas of planning, procurement, maintenance, process control, and material handling.

SOFTWARE & SOFT SKILLS

- **Technical:** AutoCAD, SolidWorks, MS Office (Advanced Excel), CMMS Software
- **Professional:** Preventive Maintenance Planning, Root Cause Analysis, Team Leadership & Training, EHS Compliance, Cross-functional Coordination
